## Professional Experience

### Full Stack Software Developer Intern – On Wave Group, USA (Remote) | 10/2025 – 01/2026

- Developed full-stack web applications using Node.js and Express.js
- Built dynamic server-rendered views using EJS templating engine
- Designed responsive user interfaces with HTML5, CSS3, and Bootstrap
- Implemented client-side interactivity using JavaScript
- Created and integrated RESTful APIs for application logic
- Connected applications to MySQL databases for CRUD operations
- Worked in a Linux-based development environment
- Debugged, tested, and optimized application performance
- Collaborated with team members using Git for version control
- Communicated with the development team via Discord for daily updates
- Participated in remote meetings, sprint reviews, and demos using Zoom

### Full Stack Development Intern – Digital Place, Tangier | 05/2023 – 07/2023

- Developed user interfaces for a micro-learning platform
- Built responsive front-end components using ReactJS
- Implemented dynamic features with JavaScript
- Contributed to back-end development using Strapi
- Managed version control with Git and Bitbucket
- Participated in UI/UX meetings and integrated WhatsApp functionalities
- Conducted interface testing and debugging
- Collaborated on an EdTech project following agile methodology
